

FSS Extended Learning Program Presents Creative Drama & Improv Workshops from Drama out of the Box!

Creative Drama for Grades K-2: Children are natural actors and pretenders. Through creative drama classes, they explore thoughts and ideas while utilizing pantomime, story-telling and creative expression. We will read and act out stories, create new worlds to explore, play drama games, and become more confident in our expressive language skills while having fun and working as a team!

Improv for Grades 3-5: Did you know that improvisation isn't just for entertainment? Students who study improvisation train their minds to think more quickly and creatively in a variety of situations. They work better as a team and greatly improve their problem-solving skills. It's also a ton of fun! This improvisation workshop is designed to challenge and inspire students to stretch their brains and limits. A great class for both the seasoned performer and those new to the world of theatre who are looking to try it out.
